Find Missing Data

Problem Statement

In the given input table, some of the invoices are missing, write a SQL query to identify the missing serial no. As an assumption, consider the serial no with the lowest value to be the first generated invoice and the highest serial no value to be the last generated invoice

INPUT	
SERIAL_NO	**INVOICE_DATE**
330115	01-03-2024
330120	01-03-2024
330121	01-03-2024
330122	02-03-2024
330125	02-03-2024

Output

OUTPUT
MISSING_SERIAL_NO
330116
330117
330118
330119
330123
330124
